

Occupational Safety and Health Guide

for Visitors to the Górka Cement Site

Safety is most important to us. We believe that it is also important to our visitors. Therefore, we ask you to follow the guidelines contained in our guide.

Important Information

Be cautious: there are hazards present in the area of the plant.

The site is under video surveillance for security purposes.

Follow the designated routes. If there are no routes, follow the edge of the road.

Watch out for forklift trucks.

Use the mandatory protective equipment.

Do not enter the overhead crane operation zone.

While working on a silo-truck, use the protective equipment for working at heights

Do not run. Keep your hand out of your pockets.

Use wheel chocks (except for dumpers).

Smoking is prohibited except for designated places

Stop only on the parking lot and at loading/unloading points.

Do not enter the production zones or closed areas without due authorisation.

When a hazard occurs, evacuate to the nearest exit.

Observe the maximum speed limit of 15 km/h.

Chemical substances – follow the instructions provided on the packaging.

Do not remove barriers and other protection

Do not drive with the door open

DUMPERS

- Pay special attention to the operating overhead crane while staying in the raw material warehouse
- Lower the trailer before leaving the unloading point
- Do not go under sliding material
- Do not enter on the semi trailer before unpacking without a security system.

OTHER VEHICLES

- Be cautious while working with equipment under pressure (protective eyewear, safe distance)
- Use a safety system to protect yourself from falling down while staying on a silo-truck
- Climb up the tankers only on bays equipped with the protective systems
- Using wheel chocks is a must

REQUIRED CLOTHING

Everyone moving within the site of GÓRKA CEMENT must wear:

Helmet

Protective goggles

To be used while loading/unloading cement or aluminium oxide

Warning clothing

A vest or clothing with reflective elements sewed on.
The clothing must be fastened.

Long trousers

Working footwear

To report an accident, hazard or any other irregularities, call us! tel. 32 758 10 98

Stanowiska załadunku cementu Loading points

- 1 Załadunek cementu - BB
Loading of cement - Big Bags
- 2 Załadunek autocystern cementem G40
Loading of silo-trucks with G40 cement
- 3 Załadunek autocystern cementem G70
Loading of silo-trucks with G70 cement
- 4 Załadunek cementów w workach i BB
Loading of cement in bags and Big Bags
- 5 Załadunek autocystern luzem
Loading of silo-trucks with bulk product
- 6 Zawrót autocystern G40
Return of the G40 silo-trucks
- 7 Rozładunek tlenku - nad młyny
Alumina Oxide unloading - above the mills
- 8 Rozładunek tlenku do silosów tlenku
Alumina Oxide unloading to oxide silos
- 9 Załadunek dla drobnych odbiorców
Loading for small customers
